Annual Bull Sale at the Ranch

MARCH 3, 2025 • 2 P.M.

Watford City, ND

Selling

98 YEARLING & 2-YR-OLD ANGUS BULLS

4 2 RANCH HORSES
2 RANCH HORSE GELDING PROSPECTS

Featuring **40+**

Sons or Grandsons of Basin Payweight 1682

Welcome!

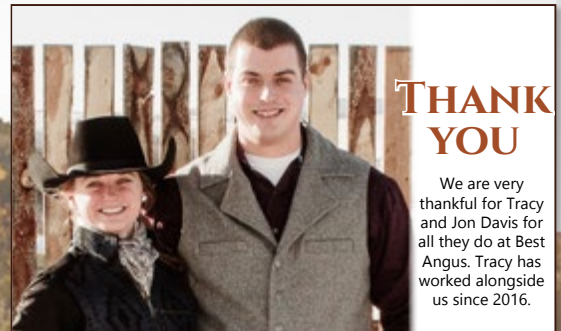

Dear Customers and Friends,

Welcome to our 11th annual bull sale. We are so grateful for your support, allowing us to serve as one of your seedstock providers. This is an honor we don't take for granted. We have stayed committed to raising cattle that work with mother nature, adapting to our unique environment. Our ranch has some challenges that make it extremely difficult to manage like a typical purebred operation. We chose to think of these challenges not as obstacles to overcome, but as opportunities to apply selection pressure and naturally cull high input cattle. Cows that thrive for us are smart, resourceful and work hard. They find the best forage, keep track of their calves, and are easy to handle keeping the cows and the cowboys stress levels low, improving productivity for all. It makes me smile when long-time customers tell me stories of selling eight weight steers off the cow or how their calves topped the market at the sale barn. It feels good to know the genetics we have tried so hard to develop are working even better for our customers.

Thanks for your interest in our program. I think you will be pleased by the bulls in this year's sale. I think this is the best set of yearling bulls we have ever offered. Please don't hesitate to call if you have any questions or just want to visit.

Best Angus Team, Back Row, L to R: Lyle and Sue Best, Vawnita and Pete Best, Jaden Murphy, Kim and Lee Murphy; Front: Kyle Best, Rita Hovet and Morgan Murphy

THANK YOU

We are very thankful for Tracy and Jon Davis for all they do at Best Angus. Tracy has worked alongside us since 2016.

SALE TERMS & CONDITIONS: Terms of the sale are cash. Each animal will be sold to the highest bidder. Any bidding disputes will be settled by the auctioneer. Any person attending the sale will do so at their own risk. Neither the owner, nor any person connected with this sale assumes any liability, legal or otherwise.

SALE FORMAT: The bulls will be on display at the ranch prior to the sale. The auction sale will be conducted at our ranch. Please see the next page for details. DV Auction will produce a video prior to sale day that we will be using to conduct the sale instead of running the bulls through an auction ring.

VOLUME DISCOUNT: We will discount 3% on purchases of 3 or more bulls, 5% on 5 or more bulls, and 10% on purchases of 10 or more bulls by one buyer or buying group.

SEMEN INTEREST: We are keeping a semen interest in all of the bulls. There are bulls that we may want to collect semen on in the future. If any semen is sold, we will share in the revenue generated from the sale of semen. Buyer has full possession and full salvage value of the bull.

SIGHT UNSEEN PURCHASE PROGRAM: If you are unable to attend our sale, but you would like to purchase a bull, please give us a call and we'll be glad to help you with your selection. Describe what you are looking for in a bull, and what your price range is. We can assure you that your bid will be handled with integrity and your money will be handled like it is our own. If you do not like what we selected for you, we will keep the bull and you can keep your money.

DELIVERY: We offer free delivery for the bulls within a 300 mile radius of Watford City.

LUNCH: Please join us at the ranch for lunch beginning at noon CST.

Ads and catalog designed by
Strommen Livestock Services
Fort Rice, ND • (701) 290-3886

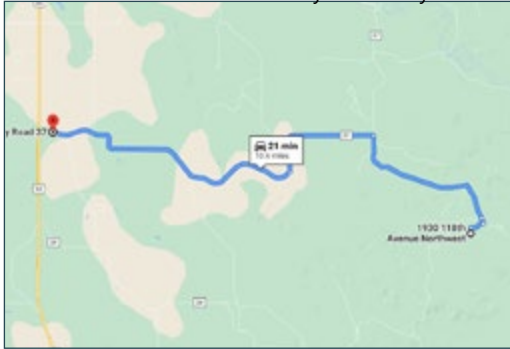

We live at the end of the road. Navigation to **1930 118th Ave NW** should send you southeast of Watford City. If it doesn't, please call Vawnita (701) 580-1862 or Kim (701) 866-7813 for directions.

There will be sale-day signs at Hwy 85, east bypass of Hwy 23 and at 120th Ave. Navigation works most of the time, if you type in our address. **THE RANCH IS SOUTHEAST OF WATFORD CITY.**

DRIVING FROM WEST, NORTH OR SOUTH

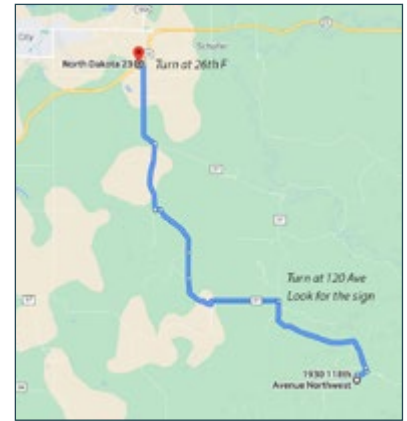

You will want to take US Highway 85 until you come to the County Road 37 intersection. Once on County Road 37 you

will drive 7.8 miles to 120th Ave. The intersection is on a curve with an old school house and you should see a sign as well. You will be turning off pavement at 120th Ave and you will stay on the gravel and scoria road for 3 miles until you arrive at the sale location.

DRIVING FROM THE EAST

You will be driving in on Highway 23. Take the Watford City Bypass, heading SW. Then you will take the first left turn onto 26th F for just a few feet. You need to quickly turn right onto County Rd 37 for 7.5 miles until you get to 120th Ave. You will see signs and an old school house by the curve intersection. You will now be on a gravel and scoria for the next 3 miles to the sale location.

REFERENCE
SIRE

BASIN PAYWEIGHT 1682

It takes a long time to prove great maternal bulls. We have been watching Payweight for many years. I have always liked how he looks, but when I saw how good he still looked at age 10, I knew we needed to give him a try. The most important part as far as I am concerned is how his daughters have produced. You find Payweight daughters that are the cornerstones of many programs all around the country. He has been a leader in registrations for many years. At age 10 he was still 12th in registrations. There is no question he is one of the most influential sires of the past decade.

Payweight has added fleshing ability and depth of rib. Our daughters have tremendous udders. He is above average for marbling as well. He is moderate birth allowing many of his sons to be heifer bulls and excellent performance/ growth EPDs. Since he has been so widely used there are very high accuracies to his EPDs with over 12,000 progeny reported to AHIR.

It is very difficult to get a hold of Payweight semen, so this will probably be the last sons will be selling. This is also the largest and best offering of Payweight sons and grandsons, we have sold. We will keep most of the daughters.

This bull represents what we are trying to raise. He started life at 78 pounds.

He was one of the heaviest bulls at weaning and he has done very well on feed and he was the 2nd heaviest bull when we took weights in January. I am anxious to see the rest of his data come in. He's the kind of bull you can build a cow herd around.

Rainfall was Select Sires pick of one of the most influential flushes in Schaff Angus Valley history that included SAV President and SAV Raindance as well. We decided to use Rainfall, since his progeny were lower birth, deeper ribbed and more moderately framed. Rainfall can be used on heifers, if you keep an eye on them. He has enough performance for cow matings and sires some very nice females. He comes from an extremely proven and widely used pedigree, so there should be very little surprises.

SAV RAINFALL 6846

Reference Sire

We used these Hickory sons as clean up sires on our heifers last year. I expect them to be heifer bulls, but we will know for sure once we get into calving this spring.

21AR PACKER 4313

Packer was selected by McLennan Angus as the high selling bull in the 2015, 21 Angus sale. I have been impressed by the calves at Jason's for many years. Finally in 2022 Jason agreed to sell him to us.

Packer's dam is the Great Plains Estrada donor for 21 Angus. Packer is long bodied, thick made, athletic, bull with excellent feet. He ran out in the Badlands last year at age 9 with over 100 cows. The Packer calves are moderate at birth and he ranks in the top 10% of the breed for weaning weight EPD. He is going to pass on more performance and frame than most of our previous sires. The calves are calm and easy going just like their dad. We are very happy with the calves this year. He will see heavy use in our program in future years.

Save him for cows. He weaned off the cow at 820 pounds. His dam and granddam are top producing cows.

INVESTING IN YOUR *future*

Daily management determines whether or not you can pay your bills today. Sobering fact is you will not receive return on your investment for at least 18 months when you sell your first calves out of your new bull.

Investopedia defines a long-term investment as any asset that a company plans to hold for more than a year. Purchasing a bull is a long-term investment in all of our futures. If you are keeping your own replacements or selling females, your bull purchases will affect your future and your children's future indefinitely.

The market determines a base price for all bulls, but the extra investment that will impact your family's future for potentially multiple generations is often times the cheapest part of the purchase. Most calculations that I have seen are based on selling more weight. This value can not be over looked, but there are many other issues to consider for your long-term investment

- Do you think fuel costs and other inputs are likely to decrease in the future?

- Is it going to be easier to hire people if you want to expand your cow herd in the future?
- Do you think the price of cattle will go up or will you need to spread your fixed costs over more cows to improve profits in the future?
- What kind of cattle will be in demand in the future?

CATTLE THAT ARE EFFICIENT WITH NATURE ARE TIMELESS GENETICS AND AN INVESTMENT IN THE FUTURE.

Hands high with gratitude for our customers!

We want to earn a reputation of having excellent quality cattle, but even more importantly we want our customers to feel they have been treated fairly and received excellent value in their purchases. Not every animal we sell will turn out as anticipated. We want to know about it, so we can make it right.

This is going to be a hard one to let go. Buck is that guy - the one everyone wants to ride. He is built right, wired right, likes people and his job. Don't try leaving him home. He is up for any task. Comfortable and the perfect size - 14'2". Good bone. Beautiful, kind & honest. No bad habits. Tracy halter broke him as a weanling and started him as a two year old. I rode him his three year old year. Kyle has put ranch miles on him and showed him in 4-H Buck's 4 and 5 year old years. Tel Sorenson took him to some brandings last spring and drug calves on him. I rode him in a Josh Lyons reining clinic in November. He's been hauled - been there and done that. Talented. Athletic. Willing. LOTS of personality. If there is anything to ding him on - he will NEVER have a mark on him (and is scar free), but your other horses will be scuffed up a bit. I honestly believe he prefers people over other horses, and is perfectly happy alone. Again, we have raised a lot of horses. He is one of the best. There will be tears. Problem free and sound around. Good for kids, beginners, old ladies, grandpas and everyone in between. If you want to leave him here until spring, we are happy to keep him until you are ready for him and happy to put a ride or two on him before you take him.

We didn't raise Avery, but bought her a Pitzer's as a weanling. She has been SUPER easy and takes to new tasks and asks without concern. Really kind. Safe. Sound. She hasn't had enough miles to call her kid broke, but take her home and ride her for another year or two and she will be good for beginners and kids. She has a few scars from getting into wire as a youngster, but absolutely sound in every way. Her vice – she will jump a cattle guard to get back to her gal pals... and you will go to catch her and she won't be where you last left her. There is lots of opportunity to add value to this mare or keep her for the family and retire her on your place. She is an asset in either situation. If you want to leave her here until spring, we are happy to keep her until you are ready for her and happy to put a couple rides on her before you take her. Breed to classy?

When we got back into stud ownership and added mares to our band, I found this colt's mother in the Nebraska sandhills, where she had raised a number of good ranch and rope horses for a neighbor of Pitzer's. With the goal of having nice ranch horses brought back to our sale by people who buy colts from us, we wanted to offer you one off the top of the 2024 class. We offered this last year and will do it again this year – if you want us to run him this summer with our young colts, we will geld him in the fall and have Tracy start him as a two year old. Add \$1800 to your purchase price and pick him up next spring, 30 days started and post brain surgery.

This colt will make a nice ranch gelding and badlands horse. Really good bone, quite, good minded and reasonable. If you want us to run him this summer with our young colts, we will geld him in the fall and have Tracy start him as a two year old. Add \$ 1800 to your purchase price and pick him up next spring, 30 days started and post brain surgery.

“I’ve often said there is **NOTHING BETTER** than the outside of a horse for *the inside of a man.*”

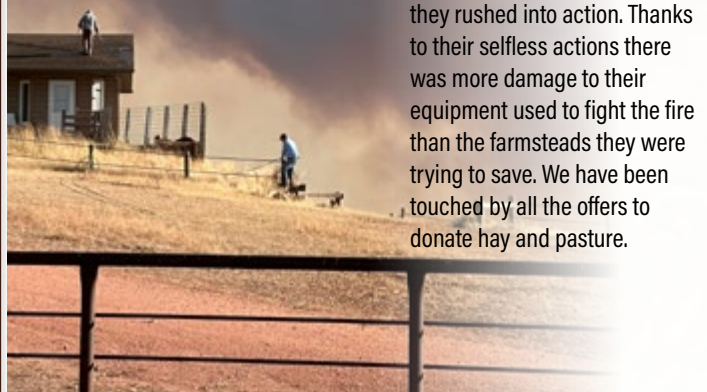

- Ronald Raegan by Winston Churchill

Hoss living his best life with Seth Forbes.

Thank you

I am always amazed by the willingness of neighbors to help at a time of need. In October, we had a humbling reminder of how wonderful a community we live in. Many of you know there was a large wildfire that burned much of our neighborhood. Our neighbors and the fire fighters dropped what they were doing and jumped into their pickups, side by sides, water trucks and tractors, and they rushed into action. Thanks to their selfless actions there was more damage to their equipment used to fight the fire than the farmsteads they were trying to save. We have been touched by all the offers to donate hay and pasture.

WORKING WOMEN ARE THE FOUNDATION OF OUR HORSE PROGRAM.

MATERNAL EXCELLENCE IN OUR RANCH HORSE PROGRAM IS A MUST.

Kyle and Paq.

CALVING-EASE BULLS FOR YOUR NEXT HEIFER PROJECT!

Angus Alliance Winchester 975 - Reg# 16533253

After using Winchester for a season and being thoroughly impressed, we purchased a semen interest in Winchester. We have used him mainly for breeding heifers for the past five years. The calves come easy with excellent vigor. He has a classic pedigree combining maybe the greatest female producer in the history of the Angus breed in N Bar Emulation EXT and Coleman Donna 386, the matriarch of the Coleman program. The daughters are what you would expect. They are attractive wedge-shaped females with strong udder attachments and perfect teat size. His EPD profile has held strong even though he has more of a historic pedigree. His actual performance ratios from use in 7 herds show 102 ratio for yearling and weaning along with 106 for marbling. His progeny demonstrate extra length and excellent rib and capacity. Dispositions have been very good. We have only had one cow that needed to be culled due to temperament after calving. If you are looking for sure thing calving ease and exceptional daughters with a classic pedigree, you might want to give him a try.

Best Box Cross 291 - Reg# 17438354

We have never used a bull that has had a more positive impact on our herd than Box Cross's sire LAR Alliance 64L. We have used numerous sons over the years and many of our top cows have been 64L daughters. Box Cross's dam was a Pathfinder donor dam that weaned off 9 calves for us with a 105 weaning ratio. She was my favorite cow at the ranch. We sold Box Cross to Ash Coulee Ranch as a yearling. Scott used him on heifers and cows with great success. Many of his sons were sale toppers and Scott says he still has customers asking if they could get more Box Cross sons. We didn't start using Box Cross until we started to see daughters producing for Ash Coulee. Box Cross calves are small at birth, but they still have excellent calf vigor and they catch up to their higher birth contemporaries by weaning. Box Cross will reduce frame without a big decrease in performance. The daughters are fertile and productive. Box Cross daughters are the smallest cows in our herd, with excellent udder structure with strong attachments and small teats. They are fertile and easy cattle to be around.

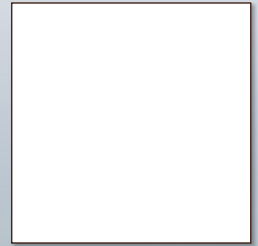

Coleman Donna 386 is the dam of Winchester

N Bar Emulation EXT is the sire of Winchester
